REGULAR MEETING OF THE BOARD OF DIRECTORS

AGENDA

TUESDAY, July 27, 2021, 7:00 PM

Notice of HYBRID Meeting

President- James Lean Vice President- Vicki Morris **Director- Marcus Dutra Director- Richard Smith** Director- Wayne Holman General Manager- Robert Johnson **Board Secretary- Louise Coombes**

The Aromas Water District Board of Directors meeting will be conducted in a <u>hybrid</u> setting. Directors, staff and public may attend the meeting remotely or in person. Public participation is encouraged – participation instructions are on the following page.

- **CALL TO ORDER** I.
- II. **ROLL CALL OF DIRECTORS:** President Jim Leap, Vice President Vicki Morris, Directors, Marcus Dutra, Richard Smith, and Wayne Holman.
- III. PLEDGE OF ALLEGIANCE
- IV. STATEMENTS OF DISQUALIFICATION
- V. ADDITIONS AND DELETIONS
- VI. MINUTES: Review the Minutes of the June 22, 2021 Regular Board Meeting for Board approval.
- VII. ORAL COMMUNICATION: Anyone wishing to address the Board on informational items, staff reports or matters not listed on the agenda may do so during Oral Communications. Please limit your comment to three (3) minutes. The public may comment on listed Action and Public Hearing items at the time they are considered by the Board.

VIII. PRESENTATIONS & REPORTS

- A. DIRECTORS' REPORTS
- B. ATTORNEY'S REPORT
- C. MANAGER'S REPORT p.7-10
- D. CORRESPONDENCE

p.11

p.3-6

ACTION ITEMS: IX.

A. Consider adopting a resolution (Resolution #2021-07) certifying a Categorical Exemption for the Martinez annexation (681 Cole Road) into the Aromas Water District bounday, and providing direction to staff.

p.12-14

- Staff will present a report on the Martinez annexation environmental documentation for discussion and Board action.
- B. Consider receiving a report regarding the Ad-Hoc Infrastructure and Financing Committee, and providing direction to staff.

p.15-16

- Staff will present a report on the initial meeting of the Ad-Hoc Infrastructure and Financing Committee, for discussion and Board action.
- C. Consider receiving a report on the Governor's Drought Proclamation, adopting a resolution (Resolution #2021-08) recognizing the Governor's request for a 15% p.17-24 reduction in water use, and providing direction to staff.

Staff will present a report and resolution regarding the Governor's Drought Proclamation for discussion and Board action.

D. Financial Reports for the Month of June 2021

p.25-30

Including both Assessment Districts, the financial reports show a Total Revenue of \$162,330.34; Total expenditures were \$181,467.86 between June 16, 2021 and July 20, 2021. These financials and monthly expenditures will be presented for discussion and approval.

- FUTURE MEETINGS & AGENDA ITEMS Next meeting August 24, 2021 A.
- **ADJOURNMENT** B.

Next Res. # 2021-09

Phone: (831) 726-3155 • FAX: (831) 726-3951

www.aromaswaterdistrict.org

Hybrid Meeting Attendance Instructions

The public may participate in the District's Board meeting either in person, or by teleconference / web conference via the instructions provided below. In person attendees will be subject to mask and distancing protocols.

The meeting materials will be available for download from the District's website at:

www.aromaswaterdistrict.org

For those who choose to attend this meeting via Zoom will be muted by default. To join the meeting from a computer, tablet, or smartphone via the Zoom app (free at http://www.zoom.us), click the link on the meeting date and time: https://us02web.zoom.us/j/89064280765

If you do not have speakers or a microphone on your computer, you can dial in for audio.

Call (669) 900.9128 and enter the Webinar ID: 89064280765

If you would like to speak during the public comment portion of the meeting, you have the following options:

- 1. <u>Online</u> raise your hand or use the Q&A panel to submit written comments.
- 2. **Phone** press *9 to raise your hand, *6 to send a request to be unmuted to submit verbal comments.

The meeting officially will start at 7:00pm, though remote access will be open 15 minutes before the start of the meeting.

Public engagement is important to the District, and hybrid meeting protocols are an evolving process.

We appreciate everyone's understanding as we work through this together.

Minutes of the Regular Meeting of the Aromas Water District Board of Directors June 22, 2021

- I. CALL TO ORDER. The regular meeting of the Aromas Water District Board of Directors was called to order by President Leap on Tuesday, June 22, 2021 at 7:00 p.m. online via Zoom.
- II ROLL CALL. President Leap, Vice President Morris and Directors Dutra, Holman and Smith were present. Also in attendance were General Manager Johnson, Counsel Bosso and Board Secretary Coombes.
- III. PLEDGE OF ALLEGIANCE. President Leap led the pledge of allegiance.
- IV. STATEMENTS OF DISQUALIFICATION. There were no disqualification statements.
- V. ADDITIONS AND DELETIONS. There were no additions to, or deletions from, the Agenda.
- VI. MINUTES. The minutes of the May 25, 2021 Board Meeting were presented for review and approval. Director Smith moved for approval of the minutes as presented; Vice President Morris seconded. Minutes were unanimously approved by roll-call vote with all Directors present.
- VII. ORAL COMMUNICATION. There were no public comments.

VIII. REPORTS/PRESENTATIONS

- **A.** Director's Report(s). President Leap expressed his appreciation for the work of the Ad-Hoc Budget Committee. President Leap also created the Ad-Hoc Infrastructure and Financing Committee made up of Vice President Morris and Director Smith.
- B. **Attorney's Report.** Counsel Bosso mentioned pending legislation regarding Federal funds allocated to counties which may or may not be distributed to local special districts.

C. Manager's Report

OPERATIONS

Production & Well Levels

GM Johnson reported total production in May 2021 was 10,680,580 gallons, with a daily average of 344,535 gallons; just over an acre foot. The stacked graph demonstrates that the amount of water pumped in May alone represents 30% of the annual total so far.

There are a currently 967 meters connected. All water testing continues to be both filed on time and represent satisfactory results.

Reporting on well levels; Carpenteria Well is down one foot and San Juan Well is down three feet. The observational level for Marshall Well is down two feet and Aimee Meadows Well is down five feet.

MAINTENANCE

Preventative maintenance of chlorine chemical pump and analyzer, as well as the Generac generator monthly fifteen minutes load test continues.

INCIDENTS

There were none at the time of writing the General Manager's report, however, between then and this Board meeting a leak in the main line on Rea Avenue occurred; this will be detailed in the next Manager's Report.

ADMINISTRATIVE

Staff & Board Recognition

CSR Bowman, ASO Coombes, WUSp Giron and GM Johnson have worked on office procedures in preparation for reopening the District office beginning June 16, 2021.

ASO Coombes emailed the annual Water Quality Report (CCR) to around two-thirds of our customers via email and a week later the remainder was sent via mail.

Operator Smith has been working hard to maintain the District's system in the absence of CO DeAlba, greatly enhancing his knowledge and understanding of the water system. CO DeAlba has returned to full duties and Op Sanchez will continue to support the District during CO DeAlba's recovery.

GM Johnson is reviewing a scope of work for MNS Engineering to perform a GPS survey of our facility assets to eliminate discrepancies in recorded versus observed elevations.

Conservation & Rainfall

Since the beginning of the new rainfall year on October 1, 2020, and up to June 16, 2021, there has been a total of 9.44" to the date of this meeting, with no rainfall in May.

Projects

Response to COVID-19 Virus

GM Johnson continues to monitor the changing pandemic regulations; the office opened to the public on June 16, 2021 and a further report was given in the Action Items of this meeting.

Technology Upgrade - SCADA

GM Johnson reported that the District's XiO website has been undergoing some updates since the new portions have been added, with special attention to the direction of water flow. GM Johnson plans to provide a short demonstration of this to the Board when it is complete.

Orchard Hill Road Proposed Annexation

GM Johnson will soon be reviewing the technical memorandum from MNS, indicating the costs and magnitude of the project involved. This will likely arrive in August and GM Johnson will subsequently present this to the Board prior to presentation to the Orchard Hill property owners.

Cole Road Outreach for Annexation

Will be discussed in greater detail in the Action Items of this meeting.

New Water Source

GM Johnson has been in touch with Granite Rock; they are collecting data from their well and have invited the District Operators to come and take a sample. Once GM Johnson has reviewed the data, including physical characteristics of their well, the sample will be taken.

Correspondence: GM Johnson pointed out one or two more Cole Road outreach responses have arrived, along with another parcel on Chateau Road requesting annexation for connection.

Significantly, the moratorium on water shut offs, due to non-payment has been extended from July 15 to September 30, 2021. This is discussed further in the first of the Action Items of this meeting.

IX. ACTION ITEMS

A. Consider receiving a report regarding the progress on the Late Fee Collection Process

During the COVID-19 pandemic, although a moratorium had been placed on shutting off a customer's water due to non-payment, there was no moratorium on the accrual or collection of late fees, but to assist our customers, late fees were held off until December 2020, when the Board directed staff to resume the collection of late fees.

After setting parameters to avoid unnecessary penalization of those who had only missed two to three payments, or owed less than \$150, a series of letters were sent to each of around thirty customers, offering payment plans. Around sixty percent of recipients agreed to a payment plan with waived late fees. The remainder, who had not contacted the office and therefore not established a payment plan, were provided one last opportunity to establish a payment plan prior to further action by the District. To the date of this meeting, only one customer has not been in contact with the office or made any payments; Staff will continue to reach out to this customer through a variety of means. Late fees will be resumed as was normal pre-pandemic.

No motion was necessary, however, there was a consensus, by all Directors, to receive the report. Director Holman commented that this process had been well done.

B. Consider receiving a report on the Cole Road Outreach Project

Since the District has recently received so many requests to be annexed and connected from parcel owners along Cole Road, the Board had directed staff to perform an outreach exercise to all parcel owners to potentially perform a multi-parcel annexation in one action. The parcel owners were contacted in April and provided with a questionnaire. In all, 26 questionnaires were sent out; of those eight parcel owners are interested; eight were definitely not interested, however two were anonymous; the remaining 10 gave no response. An additional parcel was requested to be considered; it is owned by one of the Cole Road parcel owners, located at the end of Seely Avenue, but adjacent to the Cole Road parcel. In fact, there is an easement across this parcel for District infrastructure.

Director Dutra enquired about the cost to annex all the Cole Road parcels; GM Johnson responded if he is directed to move forward, he would provide this information at the next meeting. VP Morris agreed, furthermore, mentioning that cost to the District can be prorated for each parcel and recompensed when those parcel owners become customers. Director Smith feels that parcel owners may be more interested when they know more about the costs. VP Morris mentioned that, in the past, the owners of the three large and contiguous properties on the west side of Cole Road requested annexation to subdivide. Counsel Bosso remembers this occurring on multiple occasions but suggests that the District cannot make the annexation conditional and a subdivision is usually five or more parcels. Director Holman pointed out that it is not the decision of the District, but rather PVWMA and/or LAFCo, and Counsel Bosso concurred.

GM Johnson reminded the Board that most of the connections along Cole Road so far have been granted based on health and safety to only supply the existing dwelling with water.

President Leap suggested contacting all the owners, who gave a negative response, again to illustrate that it is to the owners advantage to be annexed for a future connection. Counsel Bosso asked if the parcel owners who either did not respond or, responded negatively may have sufficient voting ability (based on property value/acreage) to oppose this multi-parcel annexation. Counsel Bosso suggested that people may have the misconception that the cost of this process will be added to their property taxes and are therefore resistant on that basis.

GM Johnson was directed to contact LAFCo to establish the cost estimate for the multi-parcel annexation.

Director Dutra made a motion to establish the cost estimate for the acreage and to find out more about the protestation ability of the parcel owners. The motion was seconded by Vice President Morris. The action was unanimously approved by roll-call vote with all Directors present.

C. Consider receiving a report on the reopening of the District office

GM Johnson presented the reopening strategy of the District office. A number of items of furniture have been rearranged to provide distance between customers and staff and clear acrylic screens on the two desks in the outer office. Requests have begun to be made to start using the District conference room by external groups; GM Johnson invited discussion from the Board. Director Smith reminded the Board that prior to the pandemic, some minor damage had been occurred in the conference room, so this provides a good opportunity to start afresh with new guidelines to mitigate such issues. GM Johnson pointed out such issues as cleanliness of the room pre and post external meetings with potential associated costs and concerns for staff safety. Director Dutra broached his thoughts that the groups coming into the office are small and local as opposed to locations such as supermarkets and restaurants and therefore strongly feels the room should be opened up again, perhaps with the option of paying for a cleaning service for each visit. Vice President Morris reminded the Board that most of these small, local groups are providing a community service and cannot afford to pay for a cleaning service.

A motion was made by Vice President Morris to reopen the conference room to the District Board from the July meeting onwards but wait until after the end of September for external groups, seconded by Director Dutra. The action was unanimously approved by roll-call vote with all Directors present.

D. Financial Reports for the Month of May 2021

On the Balance Sheet, Total Assets / Liabilities & Equity are \$10,976,000.72, of which Total Current Assets are \$4,689,141.24, and Total Fixed Assets are \$6,145,920.48. In Liabilities, the Total Current Liabilities are \$120,414.39 and Total Liabilities are \$4,413,129.23.

In the P&L Report, Water Revenue for May was \$122,310.20. Total Expenditures were \$77,875.64 between May 19 through June 15, 2021.

Director Dutra moved to approve the Financial Reports as presented; seconded by Director Smith. The Financial Reports were unanimously approved by roll-call vote with all Directors present.

X. FUTURE MEETINGS & AGENDA ITEMS. The next meeting will be on Tuesday, July 27, 2021. The next meeting will be the first in-person meeting since the pandemic began. Topics will include an update on water samples from local wells; the GPS engineering survey; the Orchard Hill project; an indication of the LAFCo costs for the multiple annexations along Cole Road as well as the Martinez annexation Resolution with a Categorical Exemption.

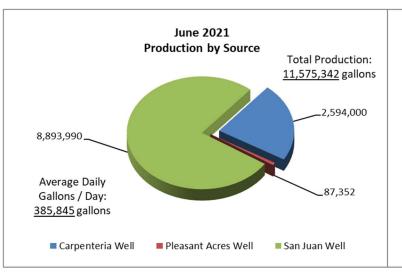

Dates were to be arranged, by GM Johnson, for the Ad-Hoc Committee meeting for Infrastructure and Financing of the new water source with Director Smith, Vice President Morris and GM Johnson.

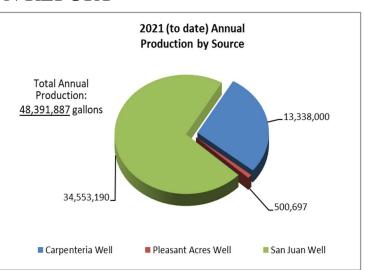

XI. ADJOURNMENT	I. ADJOURNMENT. President Leap adjourned the meeting at 8:38pm until Tuesday, July 27, 2021.								
Read and approved by:	President, Jim Leap	Attest:	Board Secretary, Louise Coombes						
Date:		Date:

Million Gal	112.37	106.15	110.17	123.42	105.97	91.27	88.152	95.304	102.07	98.141	107.1	48.40
Totals	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021

OPERATIONS AND MAINTENANCE REPORT

OPERATIONS:

- There are 967 total meters installed
- San Juan well was operated the entire month, while Pleasant Acres well was used for eight days, and Carpenteria well was utilized all but two days this month.
- Water Treatment Plant: finished water was free of both iron and manganese this month.
- Distribution testing for total Coliform; all samples were negative.
- All monthly DWR reports on Coliform, and Fe / Mn were filed on time.
- WTP filters are being backwashed when necessary.
- Monthly Generator in-house 15-minute testing under load.
- Monthly well-level monitoring (see attached chart).

MAINTENANCE:

- Preventative maintenance and flushing were performed, as needed.
- Chlorine chemical pump maintenance and analyzer maintenance at all wells was performed.
- Additional maintenance tasks are being performed as time allows.

INCIDENTS:

 A leak was reported by a customer late Friday afternoon on July 2. Water was coming from under the asphalt on Aromas Heights Road. Also, the customer's meter indicated a leak. Strategy to determine source of the leaking water was to first, have the customer fix their leak before mobilizing and cutting Aromas Heights Road. Result – customer's leak was fixed and the water coming from the crack in the road disappeared.

ADMINISTRATIVE REPORT

STAFF & BOARD RECOGNITION:

- ASO Coombes and WUSp Giron are working through the components of the Martinez SBC LAFCo application packet.
- WUSp Giron continues to work through the Operations processes to see where we can find opportunities for increasing efficiency, which in the long run, will lead to increasing effectiveness.
- CO DeAlba is out again on medical leave as of June 22. His return date is unknown at this time. The District is keeping the temporary worker for another couple months to assist with routine maintenance tasks, as well as emergency operations and on-call time, when needed.
- Operator Smith continues to do a terrific job keeping the system working while CO DeAlba is out on medical leave. This continues to be a great opportunity for Operator Smith to increase his knowledge and understanding of the water system.
- Operator Smith and WUSp Giron are working to secure a stable chlorine supplier; there is a nationwide shortage of chlorine, and while water districts have priority, it has been a challenge to procure chlorine recently.
- GM Johnson has secured / purchased a Kubota RTV unit for the Operations team.
- GM Johnson has given a Notice to Proceed on a GPS survey of our assets field work is set for early August.

CONSERVATION UPDATE:

June 2021 usage figures continue to show an increase in water use, which is expected as the temperatures increase. Even with the large rain event that occurred at the end of January, it ended up being a dry winter.

June 30, 2021 marked the end of this water year. As of the date of this report (July 19), the rain gauge at Chittenden Pass has recorded 9.48 inches of precipitation, with 0.00 inches having fallen in June. When compared to the previous water year precipitation total (16.72 inches), the dry winter forecast was correct.

PROJECTS:

1. Response to COVID-19 virus

Staff has been working to stay current on the ever-changing COVID-19 (coronavirus) situation. The office has been reopened, and customers have adjusted to the changes. Further changes are expected in late September when the current Gubernatorial executive orders sunset.

2. Technology upgrade – SCADA (delayed due to COVID-19 pandemic)

Installations are complete – respective staff members are working to complete final "punch list-type items". These should be completed by mid-August.

3. Orchard Hill Road proposed annexation progress

The Scoping Evaluation/Feasibility Study for the project has been initiated, since an individual in the group paid for the Study. MNS Engineers has been tasked with the effort, and the FINAL Technical Memorandum (TM) should be completed in mid to late August. Upon completion, this report will be shared and could result in a public meeting for the people who are interested to discuss the matter, and see if they want to move the project forward.

4. Progress on Late Fee Recovery Project

At the last Board Meeting, a report was given on the Late Fee Recovery Project, indicating that only one person was left to get their account in good standing. That customer has since come in and paid in full – so the effort put forth for the late fee recovery has resulted in all of the folks who had not paid for three months and owed over \$150.00 have been settled.

5. Progress on the Cole Road Outreach Project

Staff is working with SBC LAFCo to determine the costs of the District performing an annexation of the entire area. There are some discrepancies with the annexed area boundary that is being sorted out before staff can move forward.

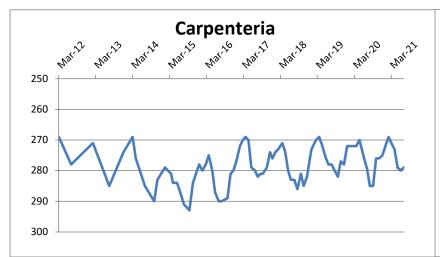

6. Progress on Finding a New Water Source Project

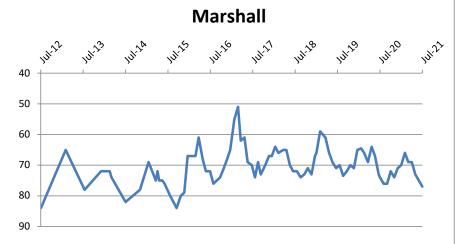

Staff met with GraniteRock staff regarding getting a water sample at the Orchard Well. GraniteRock has provided data, though it is older than the Feeney report. GraniteRock has offered to take another sample to support the District and themselves, with the parameters to be sampled being at the request of the District.

Staff Report

Re:

To: Board of Directors

Categorical Exemption for the Martinez annexation (681 Cole Road) into the

Aromas Water District boundary, and providing direction to staff

Date: July 27, 2021

Summary / Discussion

A request for water service has been received from Mr. Martinez, who lives at 681 Cole Road. His parcel is within the District's Sphere of Influence, though it is not a part of the annexed area. The annexation request is related to health and safety reasons, due to the fact the parcel's well has been providing very limited amounts of water for the last eight years, with the situation getting worse every year. Currently, they are forced to buy water from Sala water company, just to manage the basic needs of their home. They have run completely out of water on multiple instances, so gaining a stable source of water is critical for this family (paraphrased from annexation request).

The District Board of Directors (BOD) approved the initiation of the annexation process at the January 2021 meeting. This is an update of the progress of the process.

The Pajaro Valley Water Management Agency (PVWMA) BOD met on March 17, 2021 and approved the request for an exemption from Ordinances 98-01 and 98-02, allowing water to be exported out of the Pajaro Basin for health and safety reasons.

Staff and Mr. Martinez are working on the Annexation application to the San Benito County Local Area Foundation Commission (SBC LAFCo). This application has about 10 important items that need to be completed for the application to be considered. One of these items is inclusion of the appropriate environmental documentation.

For this effort, staff has determined that a Categorical Exemption (CE) under the California Environmental Quality Act (CEQA) is the appropriate level of environmental documentation. Basically, a CE is an analysis tool to determine if a project has or does not have a significant effect on the environment in the "project area". Since the District would be providing water to this parcel, there is no significant effect on the environment surrounding the parcel.

Once a completed application gets to SBC LAFCo, there is a minimum two-month wait before the item will make it on their agenda.

Staff Recommendation

Receive the update report; Certify the Categorical Exemption; and Adopt the Resolution to Certify the Categorical Exemption.

Robert Johnson General Manager

RESOLUTION 2021-07

A RESOLUTION OF THE BOARD OF DIRECTORS OF THE AROMAS WATER DISTRICT FINDING THAT A PROJECT IS CATEGORICALLY EXEMPT UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT

The Aromas Water District has made the following findings:

WHEREAS, the requested annexation for service by Mr. Jose Martinez, APN #011-280-020 (San Benito County) is a small utility extension to a single-family residence, and

WHEREAS, the California Environmental Quality Act provides a Categorical Exemption for annexations of single-family dwellings for provision of utilities pursuant to Section 15319 of the California Code of Regulations Guidelines for Implementation of the California Environmental Quality Act.

NOW THEREFORE, BE IT RESOLVED, the Aromas Water District Board of Directors hereby resolves, and order as follows:

that the annexation of San Benito Parcel No. APN #011-280-020 to the Aromas Water District is Categorically Exempt under Section 15319 of the California Code of Regulations from the requirements of the California Environmental Quality Act.

PASSED AND ADOPTED by the Aromas Water District Board of Directors, Aromas, Monterey and San Benito Counties, California, at a Regular meeting duly held on this 27th day of July, 2021 by the following vote:

James Leap, Board President	Board Secretary, Louise Coombes

TO: County Clerk County of San Benito 440 Fifth Street Hollister, CA 95023

Project Title: Annexation of Martinez Property (APN 011-280-020) into the Aromas Water District

Project Location: 681 Cole Road, San Benito County

Project Location City & County: Aromas, San Benito County

Description of Nature, Purpose, and Beneficiaries of Project: The purpose of the proposed action is to annex this one existing residential parcel into the Aromas Water District to provide residential water service in place of well water for the property owner, Jose Martinez.

Name of Public Agency Approving Project: San Benito County Local Agency Formation Commission

Name of Person or Agency Carrying Out Project: Aromas Water District

Exempt Status: (Check One)

Ministerial (Sec21080(b)(1); 15268);

Declared Emergency Emergency Project

X Categorical Exemption: Sections 15303(d), and 15319

Statutory Exemptions: State code number

Other: The activity is not a project subject to CEQA

Reason Why Project is Exempt: This project is de minimis in nature. This annexation would provide municipal water to one existing residence experiencing poor water quality and inadequate water quantity on this 6.34 acre parcel. There are no plans to subdivide the parcel.

Staff Report

To: Board of Directors

and Financing Committee, and providing direction to staff

Date: July 20, 2021

Summary / Discussion

At the June 22, 2021 Board of Directors (BOD) Board President Leap formed an Ad-Hoc Infrastructure and Financing Committee (IFC) to provide input and support in regard to the various infrastructure projects that the District has queued up, as well as possible financing options and strategies to pay for these projects. The IFC is made up of Board Vice-President Morris, Director Smith, and General Manager Johnson. The first meeting was held July 15, 2021.

The first meeting consisted of a discussion of the role of the committee, identification of the current infrastructure projects in the District's queue, possible financing options, and determination of the priority of some of the infrastructure projects. The priority had previously been set by the 2019 Rate Study document. The infrastructure projects identified in that document were: 1) Ballantree Tank Project, 2) School Road Tank Project, 3) Aimee Meadows Pressure-Reducing Station, 4) building the Operations Shop, and 5) putting solar power to the 388 Blohm Avenue facility. The new water source (well) project was identified for fiscal years 2025 to 2027. The 2019 Rate Study table is attached for reference.

The committee chose to move the new well project to first priority, since it will take some time to complete, conceding that the other projects could be worked on concurrently, as time allows. Also, it makes good sense to work on the well project now for the following reasons: 1) possible drought-related funding could be available, 2) interest rates are low currently, and 3) with the drought conditions, the sooner the District can improve its water supply redundancy, the better.

The committee also discussed other infrastructure projects that were not part of the Rate Study, and possibly be implemented in the near future.

The next meeting is scheduled for August 10, 2021.

Staff Recommendation

Receive the report and provide direction to staff

Robert Johnson General Manager

3.4 Projected Capital Improvement Projects

The District plans to continue rehabilitation and repair of its water system. The current (FY19) budget allocates \$153,000 for capital expenditures. Annual projected capital expenditures are shown in the table below for two, five-year periods – FY20 – FY24 and FY25 – FY29. Actual expenditures will vary from projections due to actual construction costs that are greater or less than projected, differences in actual timing and completion of projects and the need to address unplanned projects.

Table 3-1. Planned Capital Improvement Projects

Staff Report

To: Board of Directors

Proclamation, and providing direction to staff

Date: July 20, 2021

Summary / Discussion

In response to a second year of dry conditions in California, Governor Newsom issued drought proclamations on April 12, 2021, May 10, 2021, and another on July 8, 2021. These proclamations identified California counties that were considered in a state of emergency, drought-wise. The latter two proclamations identified San Benito and Monterey counties as being in an emergency drought status.

The most recent proclamation indicates, "...it is necessary to expeditiously mitigate the effects of the drought conditions to ensure the protection of health, safety, and the environment." To that end, the Governor has requested that citizens voluntarily reduce their respective water use by 15%.

Staff has developed a tool to help customers visualize what a 15% reduction can look like by analyzing the previous month's water use and determining how many gallons per day would need to be conserved to reach the 15% goal.

This report provides the opportunity for the Board of Directors (BOD) to discuss the current conditions and determine what actions, if any, District staff should take in response to the Governor's proclamation.

The July 8, 2021 proclamation is attached to this report for your information.

Submitted by:

Robert Johnson General Manager

RESOLUTION 2021-08

RESOLUTION RECOGNIZING STATE OF CALIFORNIA DROUGHT DECLARATION AND REQUESTING A VOLUNTARY 15% REDUCTION IN WATER USE COMPARED TO WATER YEAR 2020

WHEREAS, California's arid and semiarid climate, its ambitious and evolving economy, and its continually growing population have combined to make challenging water quantity situations the norm; and

WHEREAS, the western United States is experiencing intensifying drought, record-breaking temperatures, and declining available water reserves; and

WHEREAS, the fact that California will experience periodic droughts and water conservation is critical; and

WHEREAS, the health, welfare and quality of life for our community depends on a reliable, high quality water supply; and

WHEREAS, on July 8, 2021, Governor Newsom expanded a Drought State of Emergency declaration to a total of 50 counties across California, including Santa Cruz, Monterey and San Benito, and signed Executive Order N-10-21 calling on all Californians to voluntarily reduce their water use by 15% compared to 2020 levels; and

WHEREAS, Monterey, San Benito and Santa Cruz counties are experiencing the second consecutive year of below-normal precipitation; and,

WHEREAS, landscape irrigation makes up over half of home water use - a percentage that can be significantly <u>reduced</u> by adjusting and monitoring irrigation systems and adopting water efficient landscaping and gardening practices; and

NOW, THEREFORE, BE IT RESOLVED, that the Aromas Water District Board of Directors does proclaim that District customers should be aware of the drought and voluntarily take actions to reduce water usage by 15% compared to water year 2020.

PASSED AND ADOPTED by the Board of Directors of the Aromas Water District, Aromas, Monterey and San Benito Counties, California, at a Regular meeting duly held on this 27th day of July 2021 by the following vote:

EXECUTIVE DEPARTMENT STATE OF CALIFORNIA

PROCLAMATION OF A STATE OF EMERGENCY

WHEREAS climate change is intensifying the impacts of droughts on our communities, environment, and economy, and California is in a second consecutive year of dry conditions, resulting in drought in all parts of the State and extreme or exceptional drought in most of the State; and

WHEREAS in response to climate change and worsening drought conditions, I issued proclamations on April 12 and May 10, 2021, proclaiming drought emergencies in the counties of Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Del Norte, El Dorado, Fresno, Glenn, Humboldt, Kern, Kings, Lake, Lassen, Madera, Mariposa, Mendocino, Merced, Modoc, Napa, Nevada, Placer, Plumas, Sacramento, San Benito, San Joaquin, Shasta, Sierra, Siskiyou, Solano, Sonoma, Stanislaus, Sutter, Tehama, Trinity, Tulare, Tuolumne, Yolo, and Yuba, which have faced the most dire and severe drought conditions; and

WHEREAS since my May 10, 2021 Proclamation, California's water supplies continue to be severely depleted, and high temperatures are now increasing water loss from reservoirs and streams (especially north of the Tehachapi Mountains), and thus demands by communities and agriculture have increased, supplies of cold water needed for salmon and other anadromous fish that are relied upon by tribal, commercial, and recreational fisheries have been reduced, and risk has increased of drought impacts continuing in 2022 because of continued water loss from climate change-driven warming temperatures and less water available in reservoirs and streams from two years of below average precipitation; and

WHEREAS the counties of Inyo, Marin, Mono, Monterey, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, and Santa Cruz are now experiencing emergency drought conditions as well; and

WHEREAS it is necessary to expeditiously mitigate the effects of the drought conditions to ensure the protection of health, safety, and the environment; and

WHEREAS under Government Code Section 8558(b), I find that the conditions caused by the drought, by reason of their magnitude, are or are likely to be beyond the control of the services, personnel, equipment, and facilities of any single local government and require the combined forces of a mutual aid region or regions to appropriately respond; and

WHEREAS under Government Code Section 8625(c), I find that local authority is inadequate to cope with the drought conditions; and

WHEREAS to protect public health and safety, it is critical the State take certain immediate actions without undue delay to prepare for and mitigate the effects of the drought conditions, and under Government Code Section 8571, I

find that strict compliance with various statutes and regulations specified in this proclamation would prevent, hinder, or delay the mitigation of the effects of the drought conditions.

NOW THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and statutes, including the California Emergency Services Act, and in particular, Section 8625, **HEREBY PROCLAIM A STATE OF EMERGENCY** to exist due to drought in the additional nine counties of Inyo, Marin, Mono, Monterey, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, and Santa Cruz, such that a drought state of emergency is now in effect in 50 counties (collectively, "Proclaimed Drought Counties").

IT IS HEREBY ORDERED THAT:

- 1) All agencies of the state government are to utilize and employ state personnel, equipment, and facilities for the performance of any and all activities consistent with the direction of the Governor's Office of Emergency Services and the State Emergency Plan. Also, to protect their safety, all residents are to obey the direction of emergency officials with regard to this emergency in order to protect their safety.
- 2) The orders and provisions contained in my April 21, 2021 and May 10, 2021 Proclamations remain in full force and effect, except as modified herein. State agencies shall continue to implement all directions from those Proclamations and accelerate implementation where feasible.
- 3) Consistent with the policies stated in Water Code Section 1011.5(a), local agencies are encouraged to take actions to coordinate use of their available supplies and to substitute an alternate supply of groundwater from existing groundwater wells for the unused portion of surface water that the local agency is otherwise entitled to use. For actions taken pursuant to this paragraph in the Proclaimed Drought Counties, the provisions of Chapter 3 (commencing with Section 85225) of Part 3 of Division 35 of the Water Code and regulations adopted pursuant thereto are suspended for any (a) actions taken by state agencies pursuant to this paragraph, (b) actions taken by a local agency where the state agency with primary responsibility for implementing the directive concurs that local action is required, and (c) permits or approvals necessary to carry out actions under (a) or (b). The entities implementing this paragraph shall maintain on their websites a list of all activities or approvals that rely on the suspension of the foregoing Water Code provisions.
- 4) To ensure adequate, minimal water supplies in the Proclaimed Drought Counties for purposes of health, safety, and the environment, the State Water Resources Control Board (Water Board) shall consider modifying requirements for reservoir releases or diversion limitations to conserve water upstream later in the year in order to protect cold water pools for salmon and steelhead, enhance instream conditions for fish and wildlife, improve water quality, protect carry over storage, or ensure minimum health and safety water supplies. The Water Board shall require monitoring and evaluation of any such changes to inform future actions. Nothing in this paragraph limits the effect of operative paragraph 4 of my May 10, 2021 Proclamation.

- 5) To support voluntary approaches where hydrology and other conditions allow, the Water Board shall expeditiously consider water transfers requests with respect to the Proclaimed Drought Counties. For purposes of carrying out this paragraph, the following requirements of the Water Code are suspended:
 - a. Section 1726(d) requirements for written notice and newspaper publication, provided that the Water Board shall post notice on its website and provide notice through electronic subscription services where interested persons can request information about temporary changes; and
 - Section 1726(f) requirement of a 30-day comment period, provided that the Water Board shall afford a 15day comment period.
- 6) Operative paragraph 8 of my April 21, 2021 Proclamation and operative paragraph 2 of my May 10, 2021 Proclamation are withdrawn and superseded by the following which shall apply in the Proclaimed Drought Counties.

As necessary to assist local governments and for the protection of public health and the environment, state agencies shall enter into contracts to arrange for the procurement of materials, goods, and services necessary to quickly assist with the response to and recovery from the impacts of the drought. Applicable provisions of the Government Code and the Public Contract Code, including but not limited to travel, advertising, and competitive bidding requirements, are suspended to the extent necessary to address the effects of the drought. Approval of the Department of Finance is required prior to the execution of any contract entered into pursuant to this provision.

7) Operative paragraph 7 of my May 10, 2021 Proclamation is withdrawn and superseded by the following which shall apply in the Proclaimed Drought Counties:

To prioritize drought response and preparedness resources, the Department of Water Resources, the Water Board, the Department of Fish and Wildlife, and the Department of Food and Agriculture, in consultation with the Department of Finance, shall:

- a. Accelerate funding for water supply enhancement, water conservation, or species conservation projects.
- b. Identify unspent funds that can be repurposed to enable projects to address drought impacts to people, ecosystems, and economic activities.
- c. Recommend additional financial support for groundwater substitution pumping to support Pacific flyway habitat needs in the lower Sacramento River and Feather River portions of the Central Valley in the Fall of 2021.

- 8) To ensure protection of water in the Proclaimed Drought Counties needed for health, safety, and the environment, the Water Board shall consider emergency regulations to curtail water diversions when water is not available at water right holders' priority of right or to protect releases of stored water.
- 9) To ensure critical instream flows for species protection, the Water Board and Department of Fish and Wildlife shall evaluate the minimum instream flows and other actions needed to protect salmon, steelhead, and other native fishes in critical streams systems in the State and work with water users and other parties on voluntary measures to implement those actions. To the extent voluntary actions are not sufficient, the Water Board, in coordination with the Department of Fish and Wildlife, shall consider emergency regulations to establish minimum drought instream flows in the Proclaimed Drought Counties.
- 10) To proactively prevent situations where a community runs out of drinking water, the Water Board, the Department of Water Resources, the Office of Emergency Services, and the Office of Planning and Research shall assist local agencies in the Proclaimed Drought Counties with identifying acute drinking water shortages in domestic water supplies, and shall work with local agencies in implementing solutions to those water shortages.
- 11) The Department of Fish and Wildlife, in consultation with the Department of Water Resources and the Water Board, shall identify and coordinate actions to mitigate drought-related fisheries impacts in critical stream systems and identify possible mechanisms for accomplishing those actions.
- 12) For purposes of carrying out or approving any actions contemplated by the directives in operative paragraphs 4 through 9, in the Proclaimed Drought Counties, the environmental review by state agencies required by the California Environmental Quality Act in Public Resources Code, Division 13 (commencing with Section 21000) and regulations adopted pursuant to that Division are hereby suspended to the extent necessary to address the impacts of the drought.

For purposes of carrying out the directives in operative paragraph 3 and 10, in the Proclaimed Drought Counties, for any (a) actions taken by the listed state agencies pursuant to that directive, (b) actions taken by a local agency where the Office of Planning and Research concurs that local action is required, and (c) permits necessary to carry out actions under (a) or (b), Public Resources Code, Division 13 (commencing with Section 21000) and regulations adopted pursuant to that Division are hereby suspended to the extent necessary to address the impacts of the drought. The entities implementing these directives shall maintain on their websites a list of all activities or approvals for which these provisions are suspended.

This Proclamation is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

I FURTHER DIRECT that as soon as hereafter possible, this proclamation be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this proclamation.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 8th day of July 2021.

GAVININEWSOM

Governor of California
