OPERATIONS & MAINTENANCE

Production & Well Levels

GM Johnson reported total production in January 2022 was 5,073,230 gallons, with a daily average of 163,563 gallons. Both Carpenteria Well and San Juan Well ran the entire month; however, Pleasant Acres was not used at all.

With the recent connection for Mr. Martinez where one new meter installed, the current total increased to 970 connected meters. All water testing continues to be both filed on time and represent satisfactory results.

Reporting on well levels; Carpenteria Well is down two feet, San Juan Well is down one foot. Observational wells; Marshall Well and Aimee Meadows are both down one foot.

INCIDENTS

None to report.

ADMINISTRATIVE

Staff & Board Recognition

WUSp Giron continues to work with the Operations team to integrate tablets for routine recordkeeping to increase efficiency.

ASO Coombes and WUSp Giron completed documentation to further progress the Cole and Rocks Road annexation; see Action Item X.C.

Since CO DeAlba returned to work, he has been working hard to catch-up on a number of tasks that were put on hold in previous months.

Operator Smith & GM Johnson continue to work with electricians TH Electric and XiO to be able to find a solution for remotely running the backwash.

GM Johnson has recently purchased a used Kubota in excellent condition and low mileage with many

additional features installed by the previous owner.

He is also working with Allterra Solar to prepare for the solar power and battery backup system installation at the District office.

The Ad-Hoc Infrastructure and Finance Committee met in January to review the financial advisor proposals and unanimously selected one of the three; after Counsel Bosso reviewed the proposal the successful candidate was notified.

Conservation & Rainfall

Since the start of the rainfall year on October 1, 2021, at total of 14.48 inches of precipitation have been recorded by the rain gauge at Chittenden pass, with none falling so far in February 2022.

PROJECTS

Orchard Hill Road proposed annexation progress

GM Johnson met with the new contact for the Orchard Hill group, [Eric Lieu] who had a number of questions, some of which are engineering questions and MNS are currently reviewing these, which may result in additional costs to be passed to the Orchard Hill group.

Cole Road & Rocks Road Annexation Project

A Resolution for the Categorical Exemption is Action Item X.C later in this meeting. Providing this is adopted, the application for LAFCo will begin.

New Water Source – Marshall Well Project

GM Johnson will present an update in Action Item X.B later in this meeting.

Correspondence: GM Johnson responded to Director Dutra's enquiry regarding the email from Mr. Mu of Oakridge Drive regarding erosion that occurs in wet weather when the District trucks are parked offroad there; Mr. Mu has suggested alternate parking locations.

GM Johnson also called the Board's attention to the last letter on the list written to the insurance company of the vehicle which destroyed the Fire Hydrant last October to express the urgency for the recompense of the repair costs in full.

IX. CONSENT CALENDAR

A. Consider adopting Resolution 2022-02 authorizing the continuation of hybrid/remote teleconferencing meetings pursuant to AB 361

Vice President Morris moved to adopt Resolution 2022-02 as presented; seconded by Director Holman. The Resolution was unanimously adopted, by roll-call vote, with all Directors present.

X ACTION ITEMS

A. Consider reviewing the Board Policy Manual 2020

The biennial review of the Board Policy Manual was performed and, other than a small correction suggested by Counsel Bosso, there were no other changes.

Vice President Morris moved to adopt the updated Policy Manual with the minor changes requested by Vice President Morris and Counsel Bosso; seconded by Director Smith. The updated Policy Manual was unanimously adopted with all Directors present.

B. Consider receiving a progress report on the Marshall Well project

MNS is still working on the preliminary engineering report, with the help of subcontractors. Luhdorf and Scalmanini objected to some of the wording in the contract, however, with some clarification from GM Johnson, this appears to have been resolved. The two submittals from the Municipal Advisors were reviewed by the Infrastructure and Finance Committee and one was chosen and the engagement contract will shortly be signed.

The update was received by consensus.

C. Consider adopting the Resolution 2022-03 certifying a Categorical Exemption for the annexation of 27 Cole Road and 6 Rocks Road parcels into the Aromas Water District boundary

Since PVWMA approved the application for annexation for these 33 parcels in January, prior to the application to LAFCo, the environmental documentation is the next step in the process. As the District is the applicant, the survey and LAFCo fees will initially be paid by the District; recompense for this will be calculated and may be proportionately charged as Administrative Fees per customer connection, with one connection per parcel.

Vice President Morris asked whether PVWMA had any concerns about any of the undeveloped parcels, to which GM Johnson confirmed there had been no comment. Director Smith asked if the bigger parcels were divided, could each division request a connection; GM Johnson confirmed that they could, but those will be considered individually if/when this occurs in the future.

Director Holman moved to adopt Resolution 2022-03 as presented; seconded by Director Dutra. Adoption of Resolution 2022-03 was unanimously adopted with all Directors present.

D. Financial Reports for the Month of January 2022

Total Assets / Liabilities & Equity are \$10,940,723.13, of which Total Current Assets are \$4,959,084.29, and Total Fixed Assets are \$5,832,518.84. In Liabilities, the Total Current Liabilities are \$234,838.70 and Total Liabilities are \$4,161,598.68.

In the P&L Report, Water Revenue for January was \$83,093.55. Total Expenditures were \$104,326.62 between January 19 to February 16, 2022.

On the graphical representation of the Financials, when compared to the current budget there is a +0.5% difference for YTD Revenue and -3.1% difference for YTD Expenditures.

Director Smith moved to adopt the Financial Reports as presented; seconded by Vice President Morris. The financial reports were unanimously adopted with all Directors present.

- X. FUTURE MEETINGS & AGENDA ITEMS. The next meeting date will be on Tuesday, March 22, 2022 and will be the same hybrid format as this meeting. Topics will include the GM Evaluation.
- XI. ADJOURN TO CLOSED SESSION at 8:00pm.

As of the date of this report (March 16), the rain gauge at Chittenden Pass has recorded 14.56 inches of precipitation, with 0.08 inches falling this month. That is roughly a 65% increase (to date) over the precipitation received last year (9.48 inches).

PROJECTS:

1. Response to COVID-19 virus

Staff has been staying current on the ever-changing COVID-19 situation. The office has been reopened, and customers have adjusted to the changes. Staff has implemented the changes presented at the January Board of Directors' meeting. The mask mandate has been lifted for vaccinated people; however, staff cannot evaluate the vaccination status of those who enter the office, therefore, masks are required for customers to enter.

Some questions were raised that staff and consultants will be working through soon.

4. Progress on the Cole Road Outreach / Annexation Project

The PVWMA BOD approved the annexation effort, and staff has initiated the work on the LAFCo Application. Staff is working on the timing for the survey work.

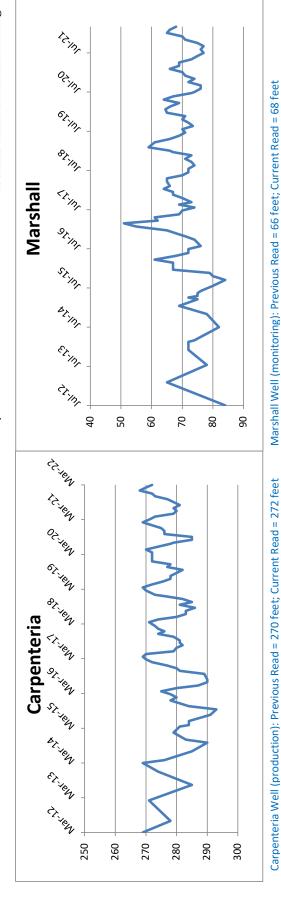

5. Progress on Finding a New Water Source Project

Staff will be presenting an update on this project as part of the Action Items at tonight's meeting.

Staff Report

To: Board of Directors

project, and providing direction to Staff

Date: March 15, 2022

Summary / Discussion

The District's Strategic Plan identified a number of projects to be completed within its five-year horizon. Some of those projects were identified in the 2019 Rate Study and were a basis for determining the water rates that were ultimately established. A non-exhaustive list of those projects includes: 1) Ballantree Tank Project, 2) School Road Tank Project, 3) Aimee Meadows Pressure-Reducing Station, 4) building an Operations Shop, and 5) installing solar power for the 388 Blohm Avenue facility. Also, identified for Fiscal Years 2024-2025 to 2026-2027 was a new water source (well) project. That project was moved up by Board decision due to current (and forecasted) hydrologic conditions.

Progress on the Marshall Well Project is as follows:

- 1) Staff has been engaging in bi-weekly progress meeting with MNS Engineers to make sure project tasks continue to move forward and identify issues. This bi-weekly forum has been invaluable in keeping the project on schedule.
- 2) Staff also had a kickoff meeting with Luhdorff and Scalmanini Consulting Engineers (LSCE) to begin discussing the timing of pre-drilling tasks, as well as the timing for the test well drilling. LSCE will begin working on the well permit as well as start participating in the biweekly progress meetings with AWD and MNS. LSCE staff will perform a site survey in the next couple of weeks to evaluate where ancillary facilities can be provisionally placed.
- 3) GM Johnson and Board VP Morris have met a couple times with the Municipal Advisor (NHA) to discuss and strategize project financing options. The last meeting was on March 14, and NHA provided some interesting information that shows a promising way forward to get this project completed. Up to date information will be presented at the Board meeting.

So, in short, the engineering is moving ahead, the geologists and drillers are preparing, and the financing is being worked out – all good news for this critical District project.
